

New Two-Wire video door entry cable for sections up to 300 m

DUEFILIELVOX

~~150 m B/W
100 m Color~~

300 m
in both B/W and colour

Thanks to the **new blue video door entry cable**, offering *improved technical characteristics compared with the grey cable* supplied up to now, due to lower signal attenuation, **installations with Two-Wire systems can cover stretches up to 300 m in both B/W and colour.**

The **grey** video door entry cable for Two-Wire installations is no longer supplied.

The new **blue cable** adopts the same codes as the **grey cable**:

- art. 732H/50, 50 m reel
- art. 732H/100, 100 m reel
- art. 732H/500, 500 m reel

Blue cable technical details:

Connection cable in PVC CEI 20-22 III Cat. D CE 450/750 V, consisting of two 1 mm² twisted wires. Can also be used for underground installation in pipes.
